Annual Report 2009

|| OM SHRI MANJUNATHAYA NAMAHA ||

#### SHRI KSHETHRA DHARMASTHALA RURAL DEVELOPMENT PROJECT (R.)

#### THE MISSION

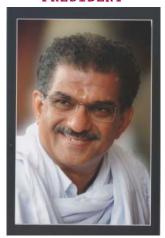

- To adopt small, marginal and micro land holders as stakeholders and organize them in the informal sector to promote sustainable farming practices. In the process SKDRDP is committed to economically empower the stakeholders to become self-reliant.
- To create a conducive environment in the village to enable different sections of the community to live in harmony. To create infrastructure through people participation to improve the living habitat.
- To motivate the individual family to plan for self-development and assist them in realizing their plans. To dare the poor to envision a dream and to work together with them to make it possible.
- To work with the unreached, the poor, the backward, the minorities, the weaker section and above all the women to empower them socially and economically.
- To promote entrepreneurial skills among the poor and escort them to implement the skills.
- To achieve progress in an environment of tolerance. To spread the message in the community that to prosper does not mean earning more rupees but to use them more judiciously. To spread the message in the community that morality is not a liability but a virtue.
- To work in tandem with all such organizations who dream of vibrant rural India, where in the rich and the poor have their needs met, where the natural resources are put to optimum use without affecting the living environment, where everybody has an equal opportunity to sustain ones dream..

## BELIEFS

- The small farmers marginal farmers need to be organized to empower them with the knowledge and tools for developing their family and their lands.
- The resources need to be generated within the village and need to be shared within the village for development.
- For a community to prosper, the rich and the poor within the community need to live in harmony and to realize that to be rich is an opportunity to serve and to be poor is not a curse but an opportunity to prosper.
- Development shall not be at the cost of values but with it. That the development coupled with strengthening of values will make the progress sustainable.
- Progress can only be achieved through participation and sacrifice and not by struggles and street fights.
- Everybody is trustworthy and therefore needs to be trusted. That micro credit based more on trust is the foundation for progress.
- Progress knows no barrier caste, creed, community it is the right of all human beings who desire to progress.

#### **TRUSTEES**

Annual Report 2009

## AREA OF OPERATION OF SKDRDP (in black lines)

### President speaks out

Ancient wisdom never said that earning is a sin, prosperity a crime, plenty an offence. But they said "earn with APARIGRAHA and spend with SAMYAMA". The Rigvedic verse said "May you collect with hundred hands and give as much as thousand hands give". Creation of wealth with social justice was propagated in the broadest, all comprehensive term "Dharma". The pleasure and happiness in "giving" is more than the pleasure in "earning" the money".

Dr. D. Veerendra Heggade
Dharmadhikari, Dharmasthala
Sri Dharmasthala

Annual Report 2009

I am very happy to review the performance of our Rural Development Programme the SKDRDP for the year 2008-09. As a development wing of the Kshetra the SKDRDP has continued to extend a helping hand to the needy while encouraging people to be self reliant. A judicious mixture of compassion and community participation has yielded excellent results in realizing the visions of the organization. I am happy to note that SKDRDP is unique in being financially self sustainable at the same time continuing to be Philanthropic.

Many a times I have wondered whether the term **Philanthropy** has any place or relevance in the modern world? Does it enjoy any respect today? Any meaning? Is it outdated? Is self prosperity and happy living alone is the ultimate goal? Can we sacrifice morality, values and ethics for prosperity?

May be, money or wealth is the culprit. It is an addiction. Does it give happiness, satisfaction and contentment? It is like fire, water, air, sky and earth. When used tactfully in right control and in right combination, it gives everything that is needed. Any excess - it hurts, destroys and disintegrates. Our ancestors were intelligent enough to learn this. They learnt the power in nature, human resource and intelligence. They understood the pleasure and happiness that would be derived from these. They also knew any excess can end up in pain and disaster. Ancient wisdom never said that earning is a sin, prosperity a crime, plenty an offence. But they said "earn with APARIGRAHA and spend with SAMYAMA". The Rigvedic verse said "May you collect with hundred hands and give as much as thousand hands give". Creation of wealth with social justice was propagated in the broadest, all comprehensive term "Dharma". The pleasure and happiness in "giving" is more than the pleasure in "earning" the money.

Although philanthropic, Dharmasthala has its own management practice interwoven with its rituals. When I assumed charge as Heggade, I was surprised to find a very well established system of clear cut authority, mechanism of internal checks and controls, a chain of command and accountability in the temple administration. The Modern management principles of authority, responsibility, accountability and transparency were embedded in the system of administration adopted and practiced by my predecessors. The system was evolved from experience, reason and concern.

Thus sustainability is a key factor in organizational development may it be a business house or a charitable setup.

Just as Dharmasthala practices sound management practices, well managed corporates also need to practice philanthropy. It is the duty of everybody who earns something to share something to the less fortunate. Our rural development project has this to say in its belief "To be rich is an opportunity to serve and to be poor is an opportunity to prosper".

We need to put things in perspective - put things in relation to the society within which organizations operate. I think the mission of the organization is central to all our inquiries and endeavors. And the mission derives its essence from the wider social context. What does the organization attempt to do in society? Look deep into the organization, as one should be doing but take time and cast ones eyes beyond the organization. It comes very natural to SKDRDP with a temple background. SKDRDP has always looked outward at the communities within which it operates. And then we look inwards. Social responsibility is not an additional task, it is the mission. For us, organizational performance is social performance.

I am very proud to be informed by the world bank MIX journal that SKDRDP charges the very competitive rates of interest when compared to the peers in the mF sector, for the loans given by them and yet the organizations' operations are self sustaining. As you will see in the annual report inside, multiple development activities and several assistance programmes have accompanied the loans to truly make marked difference in the approach towards development.

I acknowledge the contribution of our trustees, the committed workforce and the community at large in this endeavor. I pray Lord Manjunatha swamy to bless them all with the strength to take our movement forward.

(Dr. D. Veerendra Heggade) Dharmadhikari, Dharmasthala

## **EXECUTIVE DIRECTOR'S REPORT**

developement espoused by SKDRDP.

of active self help groups went up to 89.162 an additional districts viz Kodagu, Haveri, the performance is remarkable. Dharwar and Gadag districts. Considering the measured progress sofar this was an outstanding SKDRDP has always believed that stakeholder promoted from the sevaniratha cadre in the to apply for various positions and recruiting men to trainings, subsidies and charities. and women almost in equal numbers. A point of concern has been the increased turnover of It was remarked by Dr. N. K Thingalaya famous simplify certain systems.

impacted with the outstanding amount as at

I am very happy to table the 27th annual report 31.3.09 going up to Rs. 489.31 crores from Rs. of SKDRDP with a sense of humility in the 343.57 crores for the same period last year a knowledge that the experiments of the massive jump of 43%! The banks continued to organization are getting wider recognition. The support the organization by recognizing the implementation of the business correspondent credibility of SKDRDP and extending the necessary (BC) model in the north Karnataka districts of financial assistance at very competitive rates. Dharwar, Haveri and Gadag, the conduct of Inspite of the hardening interest rates the Grameena, a state level workshop and the organization was able to peg down the financial change maker awards by the Ashoka expenses to 7.17% down from 8.73% in 2005 Foundation and Citibank conferred on the primarily because of the increased volume of the Pragathi Bandhu model and the Sampoorna own funds. The total expenses/assets was suraksha models of SKDRDP are the highlights reduced from 13.11% during last year to10.97% of our performance during the year which during the current year. And the revenues from indicated overwhelming interest of the world the microfinance was 11.2 % with a profit margin community on some of the unique models for of 1.32%. The operational expenses/assets were pegged at 3.31% and the staff expenses at 1.55% can be considered as highly efficient. As a result The institution was able to record a commendable the microfinance portfolio of SKDRDP turned overall performance during the year. The number corner to become operationally self sustaining at 101.34% OSS. Considering the fact that SKDRDP increase of 17.5% in the number of groups. The has derived unique and viable loan products number of members availing the services went comparable to the formal banking sector up by 32% to 9,04,538. During the year the exclusively for the poor and that the interest SKDRDP became operational in four rates also match that of the commercial banks

achievement. In keeping with the HR policy of capacity building is a precursor to financial the organization, the supervisory staff were intermediation. As such the organization has developed several field training tools. During the prevailing areas. This provided a great year we conducted 4364 training programmmes opportunity for the youngsters to show their in farming alone. Besides 3423 demonstrations organizational skills in the new area. However plots were assisted for the farmers to understand the local lads were recruited in large numbers the technologies. Keeping the tradition of for the grass root level work of the sevaniratha supporting the development programmes through in these new areas. The organization also financial assistance SKDRDP during the current maintained gender ratio by encouraging women was able to utilize Rs.2.84 crores as assistance

the new recruitees in the new areas specially in economist and former CMD of Syndicate Bank the first two months of recruitment. While many while disbursing scholarships to children of SKDRDP left the institution citing better opportunities stakehoplders that this is a unique incidence where elsewhere quite a few cited the workload as the an NGO is trying to cater to the second generation reason for quitting. The organization therefore stake holders. Thus the Sujnananidhi Scholorship quickly reviewed the staff workload, tried to scheme meant for the children of SKDRDP SHGs to persue technical education entered its third year and a sum of Rs 0.82 crores was expended The microfinance portfolio was positively as monthly scholarship to 1962 students persuing

Annual Report 2009

technical educations like engineering, nursing, SKDRDP joined hands with the State Bank Of India MBBS etc.

The community development works undertaken invested on various projects to create assets worth Rs 10 crores.

October 21st 2008 was memorable for SKDRDP when it hosted a state level workshop entitled "Grameena" to highlight various innovations in rural development. Held at Bangalore the oneday workshop was an outstanding success with more than 100 NGOs, corporates, scholors, government and the Banks participating. The Honble Rural development minister, Govt of Karnataka and the CMD of SIDBI were among those attending.

SKDRDP held its 29<sup>th</sup> Krishimela in Thirthahally taluka of Shimoga district and it turned out to be an outstanding success with more than five lakh people from all walks of life participating in the mega event spread over three days.

to SKDRDP when two of its initiatives, namely the the Pragathi Bandhu SHG programme and crores as at 31.03.2010. the Sampoorna Suraksha health insurance programme were adjudged as the Changemaking All in all it was a memorable year for SKDRDP by the Changemakers.net of the M/S Ashoka Foundation of the US and the international Citi Bank. The inniovations were awarded a cash price of US\$ 5000 each.

The clearcut intention of SKDRDP has been to impact the living environment inhabited by the poor without bringing harm to ecology. In this As we move on I also invoke the benovalence of context the organization veered towards organic our trustees and resielience from our staff to farming and eco friendly practices like gobargas standup and perform. cooking plants solar homelighting systems etc. A provided by our President Dr. Veerendra Heggade when he allocated a reward fund of Rs 6.0 crores to encourage sanitation, Biogas, organic farming and livelihood through dairying. With warm regards. A total of 22370 families reaped benefits of this mega programme implemented over 6 months from January 2009. While the programme was nearing completion at the end of the year, the impact was tremendous.

to implement the BC programme meaningfully where in SKDRDP entered in to an agreement with SBI to ptomote and maintain 30,000 SHGs by the organization to support community asset on behalf of the bank in the backward districts creation saw an investment of Rs 2.05 crores of Dharwar, Haveri and Gadag, which would ultimately benefit 5.50,000 poor families. As the year end approached the SKDRDP had launched

Dr. Thingalaya lights the Grameena lamp. Also seen are Dr Panchmukhi, Dr. Heggade, Smt. Heggade and Sri Surendra Kumar.

December 2008 came with a pleasant surprise the massive operations of setting up the machinery to manage a loan portfolio of Rs.150

financial intermediations of the 21st century when it became sustainable vet remained compassionate. The orgnisation continues to rely on the grassroots for its performance and the promoters for its wisdom. At the same time it seeks the blessings of Lord Manjunatha swamy for strength to continue its efforts in visualizing its mission.

fillip to the efforts of the organization was I request our patrons to please pause awhile and go through our annual report. Your words of encouragement will certainly enthuse us.

Manjuanth L. H. **Executive Director**

## **INTRODUCTION**

Promoted by a spiritual centre SKDRDP has always been very sensitive in doing any thing that is perceived to be profit making even though it concerned the welfare of the poor. It was therefore a very reluctant step towards microfinance and was driven more by the need of the community rather than profit taking. Over the last decade the mF portfolio grew in size and provided the necessary funds for geographic extension of SKDRDP. In the process the organisation recognised the increasing financial needs of the community for survival and achieve the desired transformation.

The poor community needs all kinds of financial support. Many a times the members in the family have no source of income and have no hope of earning in the short term or sometimes even in the long term. such families need charitable support.

Many families need charity during emergencies such as education, hospitalization etc.

However most families need financial support to set up livelihoods. They are afraid of borrowing for the fear of failure of the enterprise and becoming defaulters, such people should be properly motivated, trained and some incentive given upfront to encourage them to take up the activity, These coupled with specific term loans will help them to setup the desired livelihood and become self reliant in the long run.

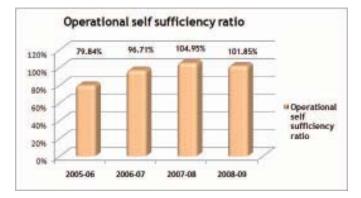

Similarly for acquiring minimum needs like sanitation, drinking water, dwelling house, childrens education, households need support. Money invested for these purposes has no direct returns and therefore is perceived to be wasteful. Monies borrowed for these purposes have to be repaid through other incomes. Therefore borrowers of these loans are reluctant to either borrow or if borrowed to pay higher rate of interest.

The money supply to the poor therefore varies. It could be long term charity or short term charity. It could be onetime subsidy assistance with or without loan support. It could be a long term loan or a short term loan. For some loans higher rates of interest could be charged based on the risk perception and the expected returns. However for several other loans the rate of interest should be low so as not to burden the borrower. Some loans can be repaid in the short term and some require long period of time and large number of installments for repayment.

Considering the above varied requirements of the poor the SKDRDP decided to deviate from the prevailing mF lending methodologies to create its own model called the Pragathindhi. Pragathindhi actually means Fund for Progress. This all encompassing method provides the much needed financial support in a manner that is manageable to the poor. Although the processes involved are slightly elaborate the result is truly gratifying.

Today SKDRDP is not only one of the biggest microfinance provider in the country but is also distinct in its services. The financial products offered by SKDRDP blend business, compassion, charity in to a unique package. What is more the operations are operationally self sustaining.

The annual report 2008-09 has been presented in the backdrop of the performance of SKDRDP wherein it was able to achieve a 100% operational self sufficiency in spite of low returns on the investments compared to the peers in the sector.

Annual Report 2009

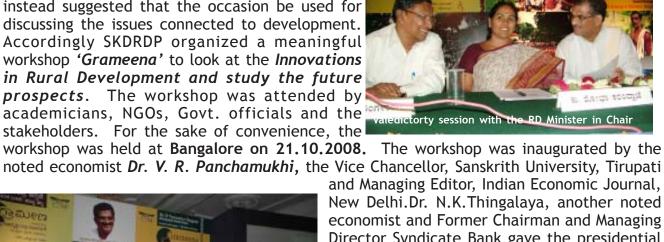

## HIGHLIGHTS OF THE YEAR

- Dharwar, Haveri, Kodagu and Gadag Dists.
- 2. SKDRDP promotes 21,426 new self help during the year. As on 31-3-2009 client base of SKDRDP consisted of 89,162 self help groups and 9,04,538 clients.
- 3. The total outstanding savings of these SHGs amount to a staggering Rs. 137.61 crores.
- 4. SKDRDP borrowed from various commercial to SHGs. A total of Rs.265.00 Crores was borrowed during the year.
- current year stood at Rs. 407.00 crores.
- 6. Groups promoted by SKDRDP have made a During the year the groups distributed Rs. 587.07 crores among the members which included their savings.
- 7. The Sampoorna Suraksha programme provided assistance to a massive number of 16 The Janajagruthi programme in collaboration 67,822 climants to the tune of Rs. 21.37 crores.
- consisiting of 11,77,325 members have enrolled to Sampoorna Suraksha scheme by paying a premium of Rs. 16.80 crores. For the first time SKDRDP has segregated BPL population and brought them under the universal health insurance policy of Govt. of India with a subsidised fee.
- 9. SHGs promoted under Shree Dharmasthala SIRI Gramodyoga Samsthe achieved a turnover of Rs. 7.12 crores during the year.

- 1. Expansion of SKDRDP activities to 10. SKDRDP has provided development assistance to individuals and institutions to the extent of Rs. 5.96 crores during the year.
  - groups adding on a client base of 1,90,925 11. The Sujnananidhi scholarship scheme launched by SKDRDP helps 1962 students with scholarship worth Rs. 82.06 lakhs.
    - 12. The Navachethana Scheme helps 3 schools to the tune of Rs. 5.25 lakhs for differently abled schools to establish facilities for the differently abled children.
  - banks and private sector banks for onlending 13. Community development programme of SKDRDP provides teacher services to 375 schools.
- 5. The total disbursement to the SHGs for the 14. The 29th Kissan Mela was organised at Theerthahalli (Shimoga district.) More than 500,000 people visited the mela.
  - total turnover of Rs.1382.54 crores so far. 15. SKDRDP organises Grameena a state level workshop on innovations in Rural Development at Bangalore to celebrate 60th birth day of its founder Dr. D. Veerendra Heggade.
    - with SKDRDP conducts 50 de-addiction camps deaddicting 2,890 members.
- 8. For the year 2009-10, 2,94,734 families 9. A workshop for the officebearers of Janajagruthi forum was held at Puttur on October 2<sup>nd</sup> 2008. Dr. B. M. Hegde, former Vice Chancellor, MAHE and a reputed physician guides the participants.
  - 13. Dr. L. H. Manjunath, Executive Director attends Asia Pacific Regional Micro Credit Summit at Bali, Indonasia and presented a paper on Reducing cost and enhancing productivity in the micro finance sector.

## "GRAMEENA" Workshop on Innovations in Rural Development Problems and Prospects

During the year 2008-09 Dr. D. Veerendra Heggade passed a mile stone by celebrating his 60th birthday. Naturally staff and stakeholders of SKDRDP were overwhelmed by this unique event. Dr. Heggade rejected any personal felicitations and instead suggested that the occasion be used for discussing the issues connected to development. Accordingly SKDRDP organized a meaningful workshop 'Grameena' to look at the Innovations in Rural Development and study the future prospects. The workshop was attended by academicians, NGOs, Govt. officials and the stakeholders. For the sake of convenience, the workshop was held at Bangalore on 21.10.2008. The workshop was inaugurated by the

and Managing Editor, Indian Economic Journal, New Delhi.Dr. N.K.Thingalaya, another noted economist and Former Chairman and Managing Director Syndicate Bank gave the presidential address. Inaugural was followed by four technical sessions entitled 'Promoting Livelihoods', 'Promoting Self Reliance', 'Expanding Micro Finance' and 'Promoting Community Development and Social Changes'. The presentations included experts from the sector like Sri. Vivekanand N. Salimath, Sri. Ananthyayya Achar, Sri. Hemareddy, Sri. T. Somanath, Sri. Deepak B.Gore, Dr. Latha Krishnan, Sri. Srihari, Sri. K.N.Sharma, Sri.

D.S.K.Rao, Ms. Meena Raghunathan, Sri. Suresh K. Krishna, Sri. Samith Ghosh, Dr. L.H. Manjunath, Sri. M.R.Sowmithri, Sri. Ramesh Venkateshwaran, Dr. Venkatram, Sri. Vijay Kulkarni, Sri. Javashankar Sharma and Sri. N. Narasa Reddy.

After a lively discussion in the technical sessions valedictory in the evening was held in which the Hon'ble Minister for Rural Development and Panchayath Raj, Government of Karnataka, Ms. Shobha Karandlaje was the Chief Guest. Sri R. M. Malla, Chairman and Managing Director. SIDBI was the guest of honour. Dr. D. Veerendra Heggade presided in the valedictory programme. The workshop left a lasting impression and gave ample food for thought.

150 participants sat through the entire programme with actors of cirotesies, participants

Annual Report 2009

#### **SKDRDP WINS TWIN INTERNATIONAL AWARDS**

Two successful financial initiatives of Shri Kshethra Dharmasthala Rural Development Project (R.) (SKDRDP) namely "the Pragathibandhu - small farmers come together to share and learn" and "Sampoorna Suraksha - a social security for all occasions" have won prestigious "Changemakers Award" promoted jointly by the US based Ashoka Foundation and Citi bank in the competition "Banking on social change - seeking financial solutions for all".

Promoted as a novelty to search for models for financial inclusion in the 21st century, this

web based competition evoked response from 280 institutions across forty three countries. An expert committee drawn from the corporate sector finalized a list of thirteen nominations. Four models from India, two from Argentina and a model each from Canada, America, Venezuela, Netherlands, Liberia, Kenya moved into the final round. Among these the SKDRDP promoted pragathibandhu model provides an alternative methodology to finance the farming activities of the small

farmers. It strives to provide viable answers to the complicated problems of the farming community in India today. The model has successfully been implemented in coastal and malnad Karnataka districts consisting of 1,32,000 small farmers who have been organized in 23,300 Self Help Groups. What is more, the model is entirely self sustaining.

While **Sampoorna suraksha** is a self financing multipurpose insurance product to protect the poor against hospitalization expenses, maternity, death, domiciliary treatment and accidents. Implemented for over five years now, the model sofar has settled more than 100,000 claims and during this year has attracted 14,00,000 clients.

In the final phase the thirteen selected models were kept open for voting in the website www.chagemakers.net.

On December 1, 2008 three most popular models comprising the Pragathibandhu, Sampoorna suraksha and a micro finance model from Argentina were declared the best.

The nominations made by SKDRDP for the awards are reproduced in the following sheets.

"Pragathi Bandhu" Small farmers come together to share and learn.

- Main barrier addressed: Non-affluent are not valued customers
- Main insight addressed: Turn hidden value into alternative markets

What is your signature innovation, your new idea, in one sentence?

Build the confidence and self esteem of small farmers, plan the farm, prepare for the market and access the linkages.

#### Describe what makes your idea unique-different from all others in the field.

Farming is a high risk enterprise in India with uncertain monsoons, possibilities of adulterated seeds manures and pesticides, risk of pests and crop failures and lack of consistent markets. To prepare an uneducated farmer to face the adversities, convert the threats in to opportunity, weakness into strength will save millions of Indian farmers from despondence.

## How do you implement your innovation and apply it to the challenge/problem you are addressing?

We organise the small farmers into small affinity groups of five members called the Pragathibandhus (relatives in progress). Most of these are illiterate men (In 10% cases women folk also join the movement), who come together to first prepare a five year plan to convert their holding into a mixed farm yielding them return daily, weekly, and in lumpsum. They implement the plan by sharing a day's labour together once a week, compulsory savings which is used as margin for borrowing larger investments on the farm land. They learn and practice from one another to reduce external inputs in farming operations and increase free internal inputs to make the farming inexpensive. They plan farm cash flows in such a way that they repay their debts in small sums on a weekly basis so that their large loans are repaid easily. Over a period of time they learn to plan and execute their farming and finances, use technology and local resources which ultimately builds their confidence to face the adversity.

#### Do you have any existing partnerships, and if so, how did you create them?

The line departments(meaning government departments created to deal with specialised subjects like agriculture, horticulture etc.) in the government and the local agricultural research stations are important partners in that they provide technology support by providing the necessary skill training. Many a times the farm subsidies such as high yielding variety of seeds manures and machineries are routed through the pragathibandhu groups. We access the required funds for financing the farmers from the local commercial banks. The credit need assessment of the groups of farmers is made by us and finances provided to them by making bulk borrowing from banks. Support is also provided for the movement from the innovative large farmers of the area who give on the site training to the pragathibandhus.

#### In which sector do these partners work? (Check all that apply)

Citizen sector (nonprofits, NGOs), Private sector, Public sector (government)

#### Provide one sentence describing your impact/intended impact.

The innovation sofar has positively impacted 142,000 smallfarmers with holdings of less than 2 hectares apiece.

20

Please list any other measures of the impact of your innovation.

#### Annual Report 2009

The farmers have been able to plan their activities and crops which is measurable. They have been able to significantly increase their income. They are able to manage their cashflows and repay their debts. Farmers have been able to reduce their dependence on external farm inputs and significantly increase internal inputs to reduce the cost of operations and increase net incomes. The small farmer has become more organised. They participate in community development activities and civil society initiatives such as contesting elections for local governments. They are today a confident lot and can face the world unitedly. A new federation of small farmers have given them a new voice. All these are measurable. Most of the small farmers are also farm laborers in the neighboring landlords house. By virtue of the renewed sense of purpose in their daily lives their work efficiency has increased to increase the farm outputs of the large farms too!

#### Does your innovation address and/or change banking regulations?

The innovation has developed a new methodology of financing the small farms. So far the lending to farms has been activity specific expecting repayment to come from the incomes from that activity. For instance the bank finances sugarcane cultivation and waits for 18months for the sugarcane yield to come before demanding recovery of the loan. If sugarcane crop fails, yields less or there is market crisis the farmer is totally unprepared and faces balancesheet crisis. Where as the pragathi bandhu innovation looks at daily income of the farmer and encourages him to take up mixed farming which increases his income source. For instance a farmer takes up plantation crop, cash crop, vegetable cultivation floriculture fruit crops, dairy farming, a poultry, apiery, etc all of which bring in small revenues to the farmer and reduces the risk on any one crop. The farmer also manages his cash flow daily to pay small amounts from his net surplus to the loans borrowed by him. For instance the farmer pays back the sugarcane loan in weekly installments from his other incomes without waiting for sugar cane yield. When his sugarcane starts yielding he has already paid back his dues and his dependence on sugarcane has actually come down. He is able to manage the risks on sugarcane production and marketing confidently. We have redefined the approaches for lending to small farmers.

#### How many people does your innovation serve or plan to serve?

We want to drastically reach to the entire small farming community which constitutes 70% of farming community in the country and 50% of the population in the country. The potential is quite enormous. The poor farmers will benefit from the innovation.

#### How is your initiative financed (or how do you expect your initiative will be financed)?

The innovation has basically two types of costs. (1) Initial promotional costs in which the concept has to be explained to the stakeholder who needs to understand the model and agree to join the movement. This cost necessarily needs to be financed as an investment. (2) The management of the innovation involves training and capacity building of the stake holder and ensuring that the system works. This part is self sustaining in nature in the sense that the farmers pay for these services by borrowing from us and the interest income will take care of the programmme as also give sufficient net surplus to take the innovation to newer areas. All in all the innovation is totally self financing in the long run as proved by us already.

If known, provide information on your finances and organization: -

- Annual budget
- Annual revenue generated
- Number of staff (full-time, part-time, volunteers)

Talking exclusively of the pragathibandhu initiative, for the financial year ending march 31, 2008, the consolidated expenditure was Rs.366.56 million (US \$8.15mn)(1US\$=Rs.45) including a provision

of Rs.5.7 million(US\$0.13mn) for microfinance and Rs249.7million (US \$ 5.5mn) interest paid on fund borrowings. The income for the same period was Rs.377.74 million (US \$ 8.39mn) including earnings from the interest received from the stakeholders. For the year 2007-08 the organisation was able to achieve 103% organisational sustainability.

The total fulltime staff as at 31.03.08 was 1945.

#### What are the main financial barriers and how do you plan to address them?

The initiative is a multipronged solution to the vexed problems faced by the small farmers across the globe. Inview of this the initiative requires many inputs such as social, technical, financial, marketing, commercial to be used in effective implementation of the product. Building the capacities of the field staff organsing the stake holders require investments and therefore upfront investments are substantial. However the product is sustainable in two years. As an organisation we have tried to earn surpluses in our microfinance operations for making upfront investments in new areas. Rapid expansion will therefore be possible if there is outdside assistance from philanthropists. However we are not looking to this in replicating the model but depend on our own operational surpluses.

#### Aside from financial sustainability, how do you plan to grow the initiative?

We are on a systematic geographical upscaling path. We need to understand the cropping pattern, needs of the area, living environs before we can replicate the model. We therefore have prepared a blue print of doubling the scales on a year to year basis which will lead to rapid expansion. We hope to reach to three million clients over the next four years.

#### What was the motivation or defining moment that led to the creation of this innovation?

Millions of poor people became the owners of lands in the land reforms movement launched by the governments in the 1960'S. This period has also seen a rapid growth of population which has increased the dependency on fragmented lands for livelihood. This dependency has been accelerated by closure of village artisan units resulting out of rapid industrialization of farming. Thus more and more people started depending on meager income from small pieces of land for livelihood. Their aspirations were raised when the government liberalized lending to poor people. These people ventured highly scientific very risky crops expecting huge profits. When many of these crops failed to give expected returns the farmers in despondency started committing suicides. Starting with 1990'S more than 250,000 farmers have committed suicide in the country which is the single largest cause of deaths in independent Indian farming community.

Saddened by these developments SKDRDP tried to look at the issue as a whole and concluded that the farmer needs to be organised to look at farming from sustainability perspective rather than profit taking. To reduce risks in farming and to spread the risks among different crops and bring in fiscal planning and discipline among the multitude fo the small farmer community. To our surprise we found that the farming of the yore indeed practiced shared labour in accomplishing urgent tasks which facilitated a bonding and a sense of brotherhood among the nieghbours which instilled confidence among the farmers. A model therefore was developed to integrate social bonding and systematic planning through pragathibandhu model.

#### Please provide a personal bio of the social innovator behind this initiative.

Dr. Veerendra Heggade Dharmadhikari of Dharmasthala, and the president of SKDRDP trust must be credited with the innovation of the product. Dr. Heggade a religious philanthropist is a multifaceted personality active in several social spheres such as education, health, rural development, enterprise training, architecture etc. He has promoted and funded SKDRDP since its inception in 1982. He has also guided the policies of the organisation.

22

Annual Report 2009

- a) Please identify the individuals that your innovation benefits (Please check all that apply) Producers, Consumers, Holders of assets.
- b) Do you help the people you serve to buy goods or services using financial innovation? If so, how?

Yes. The innovation has helped the federation of farmers to plan their needs and purchase them in bulk to assure quality and price. For instance the farmers prepare plans for purchase of certain machineries such as pumpsets, pipelines, irrigation systems, powertillers to negotiate for the best product in the market. Similarly each farmer prepares an annual action plan to finallise the requirement. Similarly they undergo training together visit model farms put up demonstration farms through the pragathibandhu groups.

## c) Do you help the people you serve to sell goods or services using financial innovation? If so, how?

Yes. Indeed the innovation has provided a unique strength to the farmer to plan for crops and market them together. The farmers in a particular area come together to grow certain defined products which has market demand and dispose them of together which gives them the strength of volumes. For instance one farmer cultivating 25 jasmine flower plants has a very small volume of flowers. For him to market small quantity at a distant market even though the prices are good is unremunarative. Instead 10 farmers cultivating jasmine have substantial volumes to sell at best rates even in distant markets. At the same time they are also cultivating small quantity of vegetable, milk, which are also sold in the same manner. Thus thier dependency on each other has increased but the risks are spread among different crops.

This nomination was adjudged the best nomination to finally win the Changemaker's award. 280 entries from 43 nations submitted their nominations.

#### DEVARAJ URS BACKWARD CLASSES DEVELOPMENT BOARD(DBCDC) EXTENDS HELPING HAND

Dinakar achary of Nekkilady village a carpenter by profession was a daily wager earning Rs

150/- a day and going to far off places. His wife was running a petty shop which was their major source of income. Dinakar Achary was assisted with a loan of Rs 25000/- under the low interest scheme of the DBCDC which helped him to set up his own furniture mart and increase his income to Rs. 200/- net. Since he stayed at home with his wife he was able to improve his wife's petty shop which is also giving higher income.

DBCDC has granted a loan of Rs 10 crores to SKDRDP at a subsidised interest rate of 5% (on reducing scales) to be on lent to the backward classes for taking

up micro enterprises, with a maximum loan amount of Rs 25000/- per capita. Reciprocating the gesture of low interest rates, SKDRDP is on lending to the eligible stake holders at 9% (on reducing scales) a reduction of 6% from the normal rate of 15%. This is an example of SKDRDP reaching the Govt. schemes to the people!

\_\_\_\_

"Sampoorna suraksha" Social security for all occasions.

- Main barrier addressed: Lack of access to markets or products
- Main insight addressed: Aggregate demand or supply to influence market

What is your signature innovation, your new idea, in one sentence?

Convince the poor to insure against emergencies and be with them in their times of need Unfailingly.

Describe what makes your idea unique—different from all others in the field.

Insurance against hospitallisation is an upcoming concept in the world inhabited by poor. However such insurance is fraught with risks because poor are mostly illiterate and can be induced by the hospitals to get admitted for illnesses which can be treated on OPD basis. And poor can hardly afford to pay huge premium to cover expensive treatment. Most community based health insurance products which are low priced cover only major ailments and those requiring surgery and those which are not preexisting. These stiff conditions therefore exclude most cases of hospitallisation poor people need to undergo. After one or two years of enrolling to health insurance, poor policy holders quickly get disillusioned with the coverage and drop out of the health insurance scheme. "Sampoorna Suraksha" a unique product developed by us has taken these factors into consideration to derive at a product which covers all cases of hospitallisation irrespective of the nature of treatment(surgical and non surgical) and preexisting or otherwise by involving all the stake holders viz policy holders, insurance company, the hospital and the facilitating NGO, to making a truly interactive product creating a win win situation for all.

How do you implement your innovation and apply it to the challenge/problem you are addressing? After undertaking a thorough research on the needs and the environment, we have developed a product which takes care of hospitallisation, maternity expenses, accidental injuries and death, domiciliary treatment, calamities and destruction of property. We have involved the major stake holders the insurance company and hospitals to arrive at a price package for most of the ailments requiring admission. We have extensively networked with the policy holders to minimize unwanted hospitallisation, developed a system of preauthorizing all admissions and ensuring prompt settlement to the hospitals. We have also developed a system where in preauthorisation is refused but the patient is still admitted because of the on site opinion, are honored for settlement as a zero rejection policy. We have also addressed other emergencies like the maternity, death and accidental death as special claims which has really built the consumer confidence resulting in near to 100% re enrollment and increased enrollments year after year.

#### Do you have any existing partnerships, and if so, how did you create them?

The product is an interactive one with the health insurance company as a major partner which accepted the hospitallisation risks at a negotiated price. The insurance company has set up representative office in our complex for on the spot redressal of issues and timely settlement. Besides we have developed an exclusive network of 200 private/government hospitals which have agreed to provide cashless treatment at prices packaged for various ailments upon preauthorisation by the sampoorna suraksha doctors. To minimise unwanted admissions the 2000 odd field animators of skdrdp have launched an awareness campaign. They also deal in claims on maternity, death and accidental death and calamity. The community based organisations Viz Self Groups and their village federations help each other in admissions and getting the treatment at packaged/ preauthorised prices.

24

In which sector do these partners work? (Check all that apply)
Citizen sector (nonprofits, NGOs), Private sector, Public sector (government)

#### Annual Report 2009

#### Provide one sentence describing your impact/intended impact.

Sampoorna suraksha which enrolled 186,000 members in April 2004 today caters to 1094,000 members in April 2008 and the scheme which itself ended in a loss in the first year has turned corner to earn a net profit Rs 5.70 million(US \$ 0.15 million) in 2007-08.

#### Please list any other measures of the impact of your innovation.

The innovation has helped the poor people to access medical and non medical facilities knowing fully well that they are protected upto a given amount on a particular ailment. This has enhanced their awareness on the market of health and non health facilities. Statistically speaking in the last four years, 67032 cases were provided cashless treatment valued at Rs.225.9 million and 41229 cases were helped with other emergencies like maternity death and accidental loss of life/vital organs to the tune of Rs81.1 million totaling a massive 108,261 settlements. The number of poor people accessing network hospital for quality treatment has gone up. There is increased awareness in the network hospitals on the needs of the poor people and cutting costs to economise on treatment without compromising on quality. The product has attracted insurance companies to bid for the product. It has attracted the insurance actuaries from across the globe and other Ngo Mfis. Infact one of the leading NBFC in the State has outsourced its insurance clients to Sampoorna Suraksha for providing the services.

#### Does your innovation address and/or change banking regulations?

To begin with the innovation has looked hard at the pricing of the product to make it affordable to poor. The mother NGO, SKDRDP has developed a low interest loan product to its clients to enroll for sampoorna suraksha. The scheme itself looks at family of upto ten as a unit to give floater benefit of Rs 5000 per member per year with the amount available to all members of the family on a cumulative benefit. For example a five member family pays Rs. 800 as premium to get benefit of upto Rs.25000 for the family. Subject to this upper any one or all the members of the family can get benefit upto Rs.25000. Besides maternity benefit for the women for upto 2 child births are compensated in the scheme upto Rs. 5000 per delivery. The scheme has won over the confidence of the clients by ploughing back the surpluses under the scheme. It has redefined the nature of services that can be provided through a formal health insurance product. Within the act of the insurance regulator the scheme has strived to provide a comprehensive coverage to the emergencies of the poor by taking all the stakeholders in to confidence.

#### How many people does your innovation serve or plan to serve?

Exactly who will benefit from your innovation? - The innovation is covering 1.09 million clients belonging to 289, 571 families serviced by two major NGO, NBFCs of the state. Ideally we would like to cover all the members from the family. With the awareness now being created on the scheme we are hopeful of doubling the number insured in the next five years every year.

#### How is your initiative financed (or how do you expect your initiative will be financed)?

It is basically a self financed scheme in which the stakeholder family pays a predetermined sum( for this year a family of 5 members have paid a premium of Rs 800 US \$18) of this a negotiated sum (This year a sum of Rs.470/- US\$10.5) is paid to insurance company to cover the hospitallisation at packaged prices. The rest is retained by the organisation to settle all the claims rejected by the insurance company as not being admissible( maximum liability in such cases is 60% of the admissible bill) as also maternity( maximum Rs 5000) death of the earning member of the family(Rs 5000) domiciliary treatment (Maximum Rs 1500) accidental death (Rs25000), disability( MaximumRs25000). The scheme finances also includes administration of the scheme including processing of preauthorization requests and claims etc. It is a community owned scheme financed by stakeholders while the other partners look at not profits but sustainability.

25

#### If known, provide information on your finances and organization: -

- Annual budget
- Annual revenue generated

• Number of staff (full-time, part-time, volunteers)

For the year 2007-08 ending on 31-03-03 the scheme generated a premium of Rs 132.6 million (US\$2.93 million at Rs45/- a dollar). During the same period the scheme paid insurance premium of Rs.85.43million (US \$1.9 million) and special claim expenditure and administrative expenses of Rs41.4 million totaling an expense of Rs 126.9 Million(US\$2.82 million) leaving a net surplus of Rs.5.7million and millions of satisfied customers too! The sampoorna suraksha employs 35 staff fulltime. Besides the animators of the NGO also support in field operations against a commission. What are the main financial barriers and how do you plan to address them?

The major barrier has been the spate of claims that the scheme is duty bound to settle some of which are over billed and some of which are unwanted admissions. At the same time by the virtue of packaged pricing policy there is little scope for hospitals to err in the line of treatment. Poor peoples insurance policy therefore leaves very little net surplus but gives a lot of satisfaction of having helped the needy.

#### Aside from financial sustainability, how do you plan to grow the initiative?

Creation of awareness on the need for insurance in general and health in particular is very significant. Also significant is to enroll network hospitals to give cost effective quality service to the poor. In effect, it is the application and approach to the scheme by all the players that will make the difference. We want to relentlessly work in creating better awareness on the product and ultimately enroll all poor in to the scheme.

#### What was the motivation or defining moment that led to the creation of this innovation?

Emergency unanticipated expenses to the borrower is dreaded by any microcredit operator. When the borrower or his family member is in a hapless situation no recovery can take place. Often medical emergency or conditions like pregnancy child birth can wipe out the assets of the poor. At the same time the existing insurance schemes do not give any confidence to poor. The requirement of the affluent from the insurance sector are very different from the poor. While the rich dread heart attacks, poor rarely suffer from heart disease but they dread simpler conditions like malaria, typhoid, a long standing hernia more than a heart condition. A tailor made product which is meant to cater to specific needs of the poor only is what motivated us to look in this sector.

#### Please provide a personal bio of the social innovator behind this initiative.

Dr. Manjunath who worked extensively in developing this comprehensive product has over three decades of experience working in villages trying to understand what works for the poor. He spent close to two years in developing and designing a workable viable model and a more intensive campaign to convince the stakeholders that it can work.

- a) Please identify the individuals that your innovation benefits (Please check all that apply) Producers, Consumers, Holders of assets
- b) Do you help the people you serve to buy goods or services using financial innovation? If so, how?

Yes. The stakeholders buy the sampoorna suraksha insurance policy from us once a year just before the new year begins. The policy will be valid for one year making the members enrolled eligible to avail treatment from the network hospital without paying cash on preauthorisation for admission from the sampoorna suraksha doctor. Incase the preauthorisation is denied and the patient and the hospital feel the need for admission they can get admitted but cannot get cashless benefit and assured settlement. In such cases the patient settles the bill himself and sends claims to sampoorna

#### Annual Report 2009

suraksha office for settlement who may or may not settle entire amount but settle they will definitely upto a minimum of 50%. Similarly in other emergency like death the NGO rushes Rs 5000 to the nominee on the same day and then make a claim with sampoorna suraksha. In maternity the people send claim to suraksha office with the help of the animator of the NGO to get a confirmed settlement within a week.

## c) Do you help the people you serve to sell goods or services using financial innovation? If so, how?

Yes. We help hospitals to sell services to the insured people through their hospitals at predetermined rates for preauthorized cases. In case the cost of treatment is likely to exceed preauthorised amount or package amount , in cases of complications additional sanctions can be availed from sampoorna suraksha. Upon submission of the bills, as per the format, the same is processed and submitted to insurance company for settlement. Similarly we also negotiate with insurance company to sell the insurance through us to the stakeholder at pre negotiated rates. Still later work closely with the insurance company for settlement of claims.

This nomination was adjudged the best nomination to finally win the Changemaker's award. 280 entries from 43 nations submitted their nominations.

## Mrs. Bhavani resident of Vidyapura Kabaka Village, Puttur Taluk of Dakshina kannada District says her story as follows

Since last seven years I am member of chamundi SHG. Mine is a six member family including three school going children. Our landed property is only 5 cents.

I am rolling beedi and my husband is running a small footwear shop for our livelihood. Some how we are running a peaceful life. All of sudden my husband fell ill and he was diagnosed to have heart disease; doctors suggested immediate surgery , which requires a huge amount. Our savings was not enough to meet the treatment expenses . Then I remembered Sampoorna Suraksha scheme in which I got enrolled my entire family. we got Rs: 30000.00 from suraksha scheme towards my husband heart surgery expenses . Thus Sampoorna Suraksa relieved my family

from financial difficulty during my husband's illness. Myself and my entire family is grateful to Sampoorna Suraksha Programme.

### "Sampoorns Suraksha Saved my brother's life "- says Miss. Sumithra

Who is the member of Vinayaka SHG, Residing at Molahalli of Kundapura Taluk. She belongs to a

Agriculturist family, having ten members. Her brother is a Hotel employee in Mysore. On 10-05-2009 He met with road traffic accident and sustained head injury. His medical treatment expenditure was more than one lakh rupees. Out of that Rs: 50,000/ was reimbursed by Sampoorna suraksha Scheme and she took loan from her SHG for the remaining amount. She and her family says with gratitude that "Samoorna Suraksha is a worth scheme for the poor household"

## THE PERFORMANCE DURING THE YEAR 2008-09

#### COMMUNITY ORGANISATION AND PROMOTION OF SHGS:

The work of the sevaniratha the field officer of SKDRDP commences with the promotion of **Self Help Groups (SHGs)** the informal groups who socially, economically empower themselves.

The sevanirathas promote two distinct kinds of SHGS namely ...

#### 1. Pragathi bandhu groups:

In this model, five to eight small and marginal farmers come together to form a group and

undertake labour sharing once in a week. They also make small savings per week and take up financial transactions. They draw a five year plan defining the financial investments to be made for development over the years. This helps them to set up goals and try to achieve them.

Another feature of the Pragathi bandhu SHG is the mixed cropping practiced by the members of the group. This helps them to get steady income on a daily basis which helps them to meet their weekly loan repayment obligations. The members borrow money for their farming

activities to be repaid over weeks from their multiple farming produces and farm labour work done by these farmers in the neighborhood large farmer.

Performance during the year and since inception:					
		(Rs. in lakhs)			
Sl.No.	Performance	2008-09	Since Inception		
1	Groups formed	3,806	26,580		
2	Members involved	33,645	1,43,573

	Value @ Rs. 75/- per day	3,901.58	17,087.83		

28

Annual Report 2009

#### KAMBLAMAJALU PRAGATHIBANDHU SHG

This Pragathibandhu group (PBG) was formed on 29-3-2005 in Kukkehalli village of Udupi district.

Babu Naika, Sudhakar Naika, Anand Naika, Gopal Naika, S. A. Naika and Chandu Naika are the six members who save Rs. 10/-per week. All of them were small vegetable farmers. After they formed the group they became innovative. They rented out lands belonging to large farmers in the neighbouring area and started cultivating vegetables. They cultivate variety of vegetables like cucumber, snakegourd, ladiesfinger, spinach, brinjal, cowpea, bridgegourd, amaranthus, ashgourd, bottlegourd, littlegourd etc., giving them

employment all round the year. They proudly say they were labourers one time and now have become entrepreneurs. They sell vegetables worth Rs. 5.00 lakhs every year.

The members of Kamblamajalu pragthibandhu group take turns in taking their agriuculture

produces to Udupi and Kalyanpura vegetable markets on a daily basis. The group has borrowed a sum of Rs. 2,11,000/- from SKDRDP as pragathinidhi to meet their financial needs.

The group has become a model for the farmers from other districts who visit Kamblamajalu to see the dedicated works of the Kamblamajalu PBG.

"SKDRDP has made our village green and has united us. It has made us true

farmers by making us studious and killing our laziness. Lord Manjunatha Swamy has really blessed us". Admits Sudhakara Naika.

#### 2. JNANAVIKASA WOMEN SHG:

The women in rural areas have little opportunity to express their talents, views and skills in any forum. They are tied up with their household duties taking care of family. Jnana Vikasa is a forum

for women to develop their skills express their innate talents and empower themselves in the company of the fellow rual community. The Jnana vikasas are also self help groups but with a difference in that these groups meet once in week for financial affairs and once in a month they undertake capacity building programs, awareness programs for about two hours in a common centre. The issues discussed during the meeting are related to the way of living and improving the livelihood and living environs.

#### The objective of promoting women SHGs:

- 1. Organise women from the poorer sections, backward classes, minority community, SC/ST Community, landless labourers, beedi rollers, working class women etc.in to self help groups consisting of 10-20 members each in a group.
- 2. Bringing together 4-5 groups in a village once in a month for activities.
- 3. Facilitating livelihood progammes.
- 4. Promote women empowerment, social mobilization process.
- 5. Create awareness in women and family.
- 6. Develop the habit of thrift and credit.
- 7. Educate women about family planning, sanitation, health, education, folk-culture, epics and the like.
- 8. Develop self-confidence, self reliance and physical appearance.
- 9. Promotion of income generation activities in group enterprise.

#### Performance during the year:

(Rs. in lakhs)

#### **ANNAPPA SRINIDHI SELF HELP GROUP**

Started on 13-11-2003 in Haleyangadi village of Mangalore taluka, the Annappa srinidhi Self Help Group (SHG) is component of Chandana Jnanavikasa center which has 45 members and consists of four SHGs. The 11 members in Annappa srinidhi claim to "live like children of a single mother". They spend together one hour on every Sunday which starts with a prayer seeking the blessings of Manjunatha Swamy and Dr. D. Veerendra Heggade. This itself, they say has brought them dicipline to do activities systematically and confidence to face the life. This group has taken part in Krishimela, Brahmakalasha, Pundarikayaga and Soutramani yaga. This group has won "Championship trophy" in the Jnanavikasa rural sports meet.

The Annappa Shrinidhi SHG has total savings of Rs. 30,760/-. Members have taken loans for different purposes as follows.

SI. No.	Name of the member	Amount availed sofar(Rs)	Purpose
1.	Prameela	95,000/-	Business, House construction, consumption
2.	Nalini	90,000/-	Irrigation, closing the old loans, house repairs
3.	Bhavani	75,000/-	Irrigation, closing the old loans, house repairs
4.	Lalitha	70,000/-	Vehicle purchase, house repairs and closing old loans
5.	Nagamma	80,000/-	Fish business, house repair, closing the old loan
6.	Deepashri	50,000/-	Irrigation and marriage
7.	Jyothi	10,000/-	Closing the old loans
8.	Pathumma	85,000/-	Buisiness, house repair
9.	Shantha	70,000/-	Buisiness, house repair
10.	Veena	30,000/-	Buisiness, house repair
11.	Aisamma	40,000/-	Buisiness, house repair

All the members have taken loan for paying the premium of Sampoorna Suraksha. The group has got "S" grade.

Annual Report 2009

#### PRAGATHINIDHI PROGRAMME - CREDIT LINKAGE

The micro finance program of SKDRDP popularly known as "**Pragathi Nidhi Program**" (Pragathi Nidhi means fund for growth) has been designed to provide hassle-free, quick and easy finance to the stakeholders. The groups are eligible to get funds from SKDRDP on completion of three months of their promotion. During this period the groups are required to save regularly on weekly basis, conduct group meetings write proper resolutions, deposit the money saved in the group common account. During this period they undergo capacity building training programmes in conducting group meetings, writing basic accounts, managing the finances, preparing business plan etc. In addition to this the group members prepare a five year development plan and then break it down to an annual plan. The financial assistance will also follow the planned goals.

SKDRDP micro finance programme has several features.

- 1. The lending decision to the member is primarily taken by the group itself and seconded by the village level federation before being considered by skdrdp worker.
- 2. The first loans are normally Rs.10,000 to paid back in 50 to 100 weeks. The second loans can be for higher amounts.
- 3. Groups are normally graded before lending.
- 4. Assessment of repayment capacity of the borrower is made.
- 5. The interest rates are maintained at around the commercial bank lending rates.
- 6. The repayment instalments are flexible based on the purpose of borrowing.
- 7. The loan amounts are flexible too depending on the individual requirement.
- 8. No security is taken for individual loans upto Rs.50,000. Beyond this amount which is usually given for house construction purposes, collaterals are sought.

#### At present, five loan products are being used.

SI No	Product Name	Tenure	Purpose of loan
1	Revolving fund	50 to 156 weeks	For livelihood and emergent needs.
2	Group Activity Loan	Upto 208 weeks	For undertaking group enterprises.
3	Livelihood loan	Upto 208 weeks	To take up income generating activity by the members.
4	Infrastructure loan	Upto 260 weeks	To develop infrastructure of individuals.
5	Swagruha loan	Upto 520 weeks	Exclusively for construction/renovation/extension of house.

Annual Report 2009

## Sanction of loans:

SKDRDP borrows loans from commercial banks for onlending to SHGs. During the year SKDRDP has borrowed Rs. 265.00 crores from different banks as under.

SI. No.	Name of the bank	Borrowings for the current year (in Rs.)	Outstanding at the end of the year (in Rs.)

#### Smt. Rathna becomes hotelier

Smt. Rathna, Bijady village in Kundapur taluk is a member of our Siddhivinayaka self help group for the last four years. Rathna had great difficulty in getting her first daughter

married off. She took a loan from her group for this marriage. When she had difficulty in repaying this loan she thought of setting up a hotel. She took another loan of Rs. 30,000/- to start a small hotel in Thekkatte. Her relatives helped her with another Rs. 20,000/-. She worked hard to develop the hotel and as a result today she is getting a net

income of Rs. 300/- per day. She is able to regularly repay her earlier loan as well as the hotel loan. All her family members are engaged in working in the hotel thus becoming a family business. Members share the work and share the timings. Rathna is very happy for the change in her fate.

### SKDRDP supplies agricultural implements

SKDRDP supplied agricultural implements to promote Pragathibandhu labour sharing activities

and to motivate farmers. During the last year SKDRDP supplied implements to the tune of Rs. 1.00 crores. These implements have helped and motivated thousands of Pragathibandhus in Chikmagalur, Shimoga and Uttara Kannada districts.

#### NADUBAILU PRAGATHIBANDHU

Consisting of seven members, this group has been working since sixteen years. They save Rs. 10/-week even today. They have shared labour and developed their properties. Today each one of them earn substantial income from their small plantation. However, they have not stopped the laboursharing. They have shared profit in cash to the extent of Rs. 57,577/-. Indeed it is a saga of sacrifice for each others success.

No. of members : 7

Total savings : Rs. 49,950/-

Loans availed : Rs. 1,37,000/-

Total turnover : Rs. 5,94,000/-

No. of laboursharing days : 3,926

Value of laboursharing : Rs. 2,94,450/-

Annual Report 2009

GRADING OF THE SHGs: SKDRDP has exclusive field staff to audit the performance of the groups based on certain parameters like maintenance of proper group records, regularity of meetings, attendance, loan repayments, purpose and use of loan, growth achieved by the members, activities undertaken by the members, benefits availed from the project, co-ordination between members, utilization of funds available. To sum up, a well managed group gets 'A' grade, slight variation in one or two parameters gets 'B' grade, variations in some of the parameters which would be rectified gets 'C' grade and long pending variations in the parameters gets 'D' grade. The inspecting officer helps the group by guiding and inspiring them to maintain good grades.

'S' Grade: During the year the concept of 'S' grade a super grade alloted to SHGs with consistant track record was introduced. 'S' grade groups have the freedom of preparing an application of loan requirement and getting it sanctioned within 15 days.

#### Performance:

Sl.No.	Taluk	No. of groups graded	A Grade	B Grade	C Grade	D Grade
1	Belthangady	1546	729	683	100	34
2	Karkala	1671	1343	254	39	35

	Total	13110	9189	3079	539	303

**FEDERATION:** A federation of SHGs is constituted at the village level covering an average of thirty SHGs. The SHG leaders become office bearers of the federation. The federation plays a vital role in the micro finance programme of SKDRDP. A sub committee of the federation is created to monitor the loan sanction and its repayment in its area. The federation meets once in a month and makes an assessment of the SHGs on the basis of their performance during the month. They are temporarily graded and this grading is used for assessing the SHGs for sanctioning loans from SKDRDP.

#### FARM DEVELOPMENT AND LIVELIHOOD PROMOTION:

The fundamental objective of SKDRDP is promotion of intensive mixed farming in the area using cost effective technology to increase income levels. The local challenges in the agrarian sector is tackled by organizing the small and marginal farmer's groups. The members prepare "farm plans" up to five years defining the annual expectations. Based on the plans the farmers undertake the field activities with due support from the sevanirathas, agricultural and dairy co ordinators of SKDRDP and professionals from the various line departments.

#### Objectives:

- 1. Bringing barren/waste lands under cultivation.
- 2. Encouraging multiple cropping.
- 3. Farm planning on annual basis.
- 4. Promoting mixed cropping involving short term as well as long term crops.
- 5. Reducing the external inputs and increasing the internal inputs to increase the farm productivity.
- 6. Encourage organic cultivation farming practices.
- 7. Promote allied sector activities.

To facilitate these activities 26 agricultural officers and 13 dairy officers are working in the field. The organization has provided a total subsidy of Rs. 83.14 lakhs for taking up some of the novel activities like seed production, dairy farming. vermi manure plots, jasmine, tissue culture banana and SRI method of paddy cultivation.

#### Lavappa Gowda generates his own electricity

Lavappa Gowda, member of Bhagyodaya Pragathibandhu Self Help Group in Bilinele

village for the last six years has improved his farming activities by taking up dairy farming, coconut cultivation, piggery and migrating to organic cultivation recently. However he does not have electricity. Bilinele village in Puttur Taluk is a remote village where many houses do not have electricity.

Recently he came to know in his meeting that micro hydro electricity project can be installed if there is a natural stream flowing. Lingappa Gowda followed up this idea to install a small generator run on a small stream of water. The electricity generated by this generator is used for lighting six bulbs.

Lingappa Gowda is very happy for this development.

#### SHRI DHARMASTHALA SIRI GRAMODYOGA SAMSTHE (SIRI):

#### (Section 25 Company under Companies Act)

The organization has also been supporting the group enterprise activities of the village women by promoting a company to take care of the forward and the backward linkages required for managing village enterprises. Set up in the year 2001, the organization named Shri Dharmasthala Siri Gramodyoga Samsthe has made rapid strides in assisting the members in production and marketing of goods.

#### The activities of SIRI are:

- 1. Motivation for taking individual and group enterprises.
- 2. Providing entrepreneurial and technical inputs to the groups.
- 3. Facilitating financial assistance to start the enterprise.
- 4. Assistance in purchase of machinaries, construction of work sheds, etc.
- 5. Locating the raw material suppliers buy in bulk and supply to groups.
- 6. Provide marketing assistance and promote network.
- 7. Develop a common brand.
- 8. Advertising sales promotion.
- 9. Help the groups to deal with local taxation laws.

The Project has been using different strategies for marketing the goods like

- Ø Sales representatives
- Ø Installing SIRI shops at villages, taluk head quarters.
- Ø Identification of dealers at cities and towns.
- Ø Door to door sales agents.
- Ø Line sale by vehicles.
- Ø Advertisement and publicity through various channels.
- Ø Appoint Marketing consultants for extensive marketing network.

	Total	3676	4282.92

#### SKDRDP also promotes other off farm activities as under:

SI. No.	Nonfarm Activities	Target	Achievement during the year	Achievement since inception
1	Vehicle purchase	8023	8136	15661
2	Business	14258	19468	35460
3	Industry	986	1411	2681
4	Service	2272	2257	4339
6	Other	1379	2785	3528
	Total	26918	34237	61669

Thus the efforts of the organization in promoting livelihoods in the farm and the off farm sector has created many opportunities for the poor.

### Business with compassion

Bhagi Poojarthi mother of two daughters and a son still practices matriarchy and her son in

laws stay with her. Along with her grand children Bhagi has to manage a family of eight people. To add to her woes her only son Dinesh suffers from Paraplegia and has lost control over his legs. The family lived with the labour earnings of her son in laws.

When Bhagi Poojarthi joined Shri Kalkuda Sel Help Group in Kokkarne village of Udupi taluk, the sevanirathe encouraged her to start self employment, so that her handicapped son also could work from home. She took a loan of Rs. 25,000/- from SKDRDP under the Devaraj Aras

Backward Classes Development Corporation (DBCDC) scheme for self enterprise. This was a low interest loan sanctioned at 9% on reducing scales.

Thus started Shri Harsha Food Products, a tiny industry manufacturing namkeens like tomato

slice and masala mixture. The whole family is engaged in producing 30 kgs per day. The handicapped son 33 year old Dinesh is engaged in packing the products and he is so happy. Bhagis daughter and son in law spare three to four hours a day in the enterprise. Today the income of Bhagi poojarthi and her family has gone up from Rs. 1,800/- per month to Rs. 4,000/-. Bhagi is happy that her home industry is successful and Dinesh is not any more burden to her family.

Annual Report 2009

#### CAPACITY BUILDING OF THE FARMERS:

In order to change the mindset of the farmers and prepare them for planned working and to make them understand the progress in the technology, the farmers go through a series of capacity building exercises like training, installation of demonstration plots, field visits, visit to universities and model farmers etc. SKDRDP has incurred Rs. 21.02 lakhs for conducting various capacity building activities in agriculture, during the year.

#### Objectives:

- 1. Introducing technologies and agro practices.
- 2. Introducing new crops, high yielding varieties.
- 3. Encouraging organic farming.
- 4. Facilitation between the farmers and research centers.
- 5. Encouraging native inventions.
- 6. Environment protection and awareness creation.
- 7. Construction of watershed structures and undertaking land development programmes.

#### Field Training on Tissue Culture Banana Cultivation

SKDRDP Koppa project office conducted a one day field training programme on cultivation practices of high yielding tissue culture banana in the banana garden of Shri Chandrashekhar, a member of the pragathibandhu SHG in Sringeri village.

Mr Chandrasekhar has cultivated Nendram and Cavendish tissue culture banana in three acres and has about 1000 succors. While Chandrashekar shared his experiences, agriculture scientists from the Mudigere Krishi Vigyana Kendra(KVK), namely Dr Basvalingaiah, agronomist and Dr umashankar plant pathologist have given training on selection of banana succors, transplantation and maintenance, pests and disease control.

attended by Mr Gopal Hegde, president of the local Taluka Krishika Samaja. On this occasion, the KVK disbursed 2kg each of the banana micronutrients to the participants. The programme was successful in motivating the farmers.

#### Training in Papanna's Sustainable Integrated Farm(SIF)

Papanna, of Kenchanahalli village in Shimoga district was cultivating Sugarcane as the main crop and claims that he suffered more losses than gains.when SKDRDP opened office in his village Papanna entusuastically joined the Pragathi Bandhu programme and became a beneficiery of the Samagra Krishi Ghataka programme (SIF). He prepared a plan to diversify his cropping to go for multiple cultivations and reduce external inputs. He was advised to optimise internal inputs for the farm. He took a loan of Rs 25000/- for these activities. the govt of Karnataka gave him an assistance of Rs8000 for floriculture and an incentive of Rs 2500/- for reducing external inputs from SKDRDP.

Papanna's farm today has the following crops

- 1. Half acre Sugandharaja giving a daily yield.
- 2. Jasmine cultivation in half acre giving daily yield.
- 3. Vegetable cultivation in 1/4th acre in between floriculture.
- 4. Drumstick as a border plant 50 in number.
- 5. Pineapple 100 plants.
- 6. Lime 10 trees.
- 7. Arecanut 400 plants.

Papanna has dug a 10 ft deep well purchased a pump, applied sprinkler.

Papanna proudly says that last year he got a net income of Rs 25000/- from his farming operations which is likely to grow and be perennial in the days to come. Recently SKDRDP conducted training on Sustainable Integrated Farming to the other farmers in the garden of Papanna!

Annual Report 2009

#### IRRIGATION

One of the basic necessities of farming is the availability of adequate water. During the initial year of promotion of farmer groups, a small financial contribution is provided by SKDRDP for setting up of irrigation facilities in the field. Loans are also provided for purchase of sprinklers, wells, purchase of pump sets and other equipments. The pragathibandhus share labor for digging/ repairing the wells.

#### Performance during the year:

Sl.No.	Performance	2008-09	Since Inception
1	Families assisted to construct ponds and wells	4,578	23,085
2	Purchase of pumpsets	5,846	22,656
3	No. of families assisted in installation of irrigation systems.	9,692	31,694

SKDRDP has provided a subsidy of Rs. 17.59 lakhs in deserving cases for installing the irrigation systems.

#### **FARM MECHANISATION**

As more and more agricultural labourers migrate to non agricultural works there is a shortage of man power in the agriculture sector. Mechanisation of small farming activities is crucial to manage small farms with minimum labour. SKDRDP promotes farm mechanization activities by encouraging the farmers to adopt technology.

SI.No <sup>.</sup>	Farm Mechanisation	Target for the year	Achievement	Since inception
1.	Tillers	341	433	1213
2.	Harvesters	118	124	259
3.	Others	619	396	1301
	Total	1778	953	2773

#### **KISSAN MELA - 2009**

With an intention to provide a platform to the farmers to demonstrate and exchange the latest developments in the sector, SKDRDP is regularly conducting the annual Kissan Melas. The developments in the various segments of the sector are brought to light through stalls installed in the Mela. An opportunity is also provided to the farmers to share their views and express themselves with the ministers and political leaders regarding agriculture policy of the government and submit their request to the Government. The three day mela has different workshops, audio visual media, agricultural exhibition stalls which facilitate higher learning for the farmers who actively interact with the progressive farmers, scientists and manufacturers. The mela has earmarked one day for programmes on women empowerment. During the year SKDRDP conducted its annual 29th Krishi Mela at **Theerthahalli in Shimoga district from 21-1-2009 to 23-1-2009.** 

The Kissan Mela was inaugurated by Dr. P. G. Changappa, Vice Chancellor, UAS Bangalore, Shri Siddalinga mahaswamiji, Dr. Prapullachandra, people representatives are also participated. Dr. D. Veerendra Heggade presided over the function.

The women's day programme on 22-1-2009 which was presided over by Smt. Hemavathi Heggade. The Dharwad Milk Producers Cooperative Union and Shri Krishna Dairy Pvt. Ltd. Supported the organisors in arranging a mega cattle show.

#### Annual Report 2009

Several panel discussions were arranged during the mela on different subjects like water conservation, mixed farming, dairy farming, fund management in SHGs, dry farming, women empowerment, women self employment and future farming. Progressive farmers like Shri Devangi Prapulla Chandra, Shri Ayappa Masagi, scientists and others took part in the Mela.

Sri Devangi Prapullachandra received the life time achievement award consisting of Rs 25,000 in cash a plaque and a citation.

Achievements of the outstanding farmers were also recognized. **Shri** Gurunath Gowda, Basur village, Soraba taluk for integrated farming system, **Shri** Eshwaran P. Theertha, Kudlige village, Badravathi taluk for organic farming and **Shri** K. Manjunath Achar, Avinahalli village, Sagar taluk for allied activity (farm implementing) were honoured with falicitation cash award of Rs. 10,000/-, each with a plaque and citations.

In the valedictory of Kissan Mela on 23-1-2009 Shri R. V. Deshpande, Former Minister, Govt. Karnataka, Shri G. Ramesh, Chairman, Pragathi Grameen Bank participated. On this occasion, Shri D. Surendra Kumar, Bangalore, Shri R. V. Shasthri, the trustees of SKDRDP also participated and Dr. D. Veerendra Heggade presided. Cultural programmes were held every evening for all the three days.

The mela attracted more than five lakh visitors, had more than two hundred exhibition stalls.

#### **SWAGRUHA HOUSING PROGRAMME:**

For meeting the housing needs, SKDRDP gives exclusive housing loans. If the requirement is for higher amounts upto Rs. 100, 000, and if the applicant has repayment capacity, long repayments of upto 10 years are given to housing loans. Also the interest rates are lower for these loans matching the interest rates at which the loans are received by SKDRDP.

#### **Performance during the year:**

SI.No.	Particulars	2008-09	Since inception
1	Families assisted for house construction ,repair, renovation, electrification	46,582	2,95,927
2	House constructed for destitutes	309	1403

#### **SANITATION UNITS:**

SKDRDP since its inception has worked on creating awareness among the rural people about importance of sanitation units at home. Loans are provided to the members for constructing toilets. For the very poor a small subsidy is also given . During the year subsidy of Rs. 34.55 lakhs was given from SKDRDP to construct 8,546 toilets.

#### Performance during the year

#### WATERSHED DEVELOPMENT PROGRAMMES:

SKDRDP conducts programmes on rain water harvesting and water management activities to create awareness on water related issues and follow up with the communitry for practicing the same.

- 1. Stress on the conservation and proper management of water.
- 2. Emphasise optimum use of rainwater.
- 3. Educate the community on watershed methodology.
- 4. Take up community based watershed activities.

#### JANAJAGRUTHI MOVEMENT:

SKDRDP in its experience has found that addiction to liquor is a major bane for poor people. To wean away the working class from liquor SKDRDP in support from the public has promoted *Janajagruthi* a movement against alcoholism. Under this programme awareness is created through village meets, house to house canvas, jathas and community deaddiction camps against alcoholism. In the deaddiction camps addicts are treated and counseued.

This is one of the more successful social initiatives of SKDRDP.

#### The performance during the year:

Family counselling in deaddiction camp

During the year M/s MAM Movies a innovative group from Mumbai engaged in popularising unique social movements did a 10 min. film an Janjagruthy.

#### **COMMUNITY DEVELOPMENT PROJECT**

SKDRDP has set up a division to cater to the needs of the villages/communities in building the basic infrastructure facilities and basic education requirements. The development of the village is dependent on the availability of the natural resources and basic infrastructures in the villages and its optimum use. The projects implemented by the community development department are participatory in nature, involving the local population and leadership. The department provides financial and technology support for implementing various projects.

Annual Report 2009

The important projects under Community Development Project is:

#### JNANADEEPA EDUCATION PROGRAMME:

The Jnanadeepa programme provides support to the rural schools for acquiring better facilities like buildings, electrifications, drinking water etc., It also provides teachers support to schools having shortage of teachers. Thus the organization is acting as an important service provider for better education in the villages.

#### The Performance of Jnanadeepa:

## SKDRDP supplies school furniture's

SKDRDP has taken up a scheme of supplying furnitures to the remote schools in the State of Karnataka. Received as a donation from the President Dr. D. Veerendra Heggade, an

Pontiff of Siddaganga Mutt distributes the furniture at Tumkur, DVH is also seen

amount of Rs. 2.67 crores has been utilized to supply 8,753 sets of desks and benches to a total of 1,130 schools in Uttara Kannada, Shimoga, Chikmagalur, Hassan, Chithradurga, Tumkur and Bellary districts. The schools also contribute to this endeavor by paying 10% of the value for the furniture's.

Annual Report 2009

#### Sujnananidhi Scholarship:

To promote awareness on technical education among the rural people and to support poor students undertaking technical education SKDRDP hasinstituted *Sujnananidhi* technical education scholarships in 2007-08.

During the year 1962 scholarships were sanctioned and Rs. 82.80 lakhs was disbursed. Of this 224 students have availed scholarships at Rs. 1000/- per month

for persuing graduation courses in medical and engineering sciences. 1,738 students have availed scholarships at Rs. 400/- month for persuing short courses like nursing, diploma, ITI, teachers training etc.,

#### Navachethana programme to support the differently abled :

To commemorate the Silver Jubilee year of SKDRDP a unique programme to support schools and institutions functioning for the differently abled was launched. Under the programme assistance upto Rs. 2.00 lakhs is offered to setup infrastructural facility for the selected school. **During the year three schools were assisted to the tune of Rs. 3.5 lakhs to complete civil and other works valued at Rs. 5.25 lakhs.** 

#### GRAMA KALYANA YOJANE:

SKDRDP supports creation of village level infrastructure by mobilizing people support on burning problems in the villages, encouraging local leaderships to tackle such issues and promote creation of infrastructure with the support from the Govt., local bodies and SKDRDP.

#### Performance during the year:

Vented dam assisted under the scheme

Milk society assisted under the scheme

Annual Report 2009

## Milk Cans in Kumsi Fill up

Kumsi village near Shimoga city is relatively well developed. The milk society established

here about 8 years back was almost non functional with a collection of 10 litres a day. The dairy federation had made up their mind to close this society when SKDRDP opened its Sevaniratha office here. Manjunatha the sevaniratha recognised the great loss the village would suffer if the milk society were to close. He conducted series of meetings with the Pragathibandhus where in the

milk federation officials explained the advantages of dairying. SKDRDP advanced Rs 10 lakhs

as loan for purchase of 70 cows and the milk society was revived.

The SKDRDP also supported the dairy venture by giving subsidy assistance of up to Rs 70,000 for taking up fodder cultivation, vermi composting and biogas plants. This further strengthened the viability of the dairy activity.

Today the Kumsi dairy sends 9 cans of milk everyday and the board of directors of the society are a happy lot as the society has turned corner to make profits.

### RUDRA BHOOMI PROGRAMME (CREMATORIUMS):

A unique project for the development of scientific crematoriums and repair/renovation of crematoriums. SKDRDP considers the crematorium as the basic necessity of the village/town. SKDRDP encourages installation of fuel saving body burning chambers which have reduced fuel wood requirement for burning bodies by almost 40%.

Subsidy assistance of up to a maximum of Rs. 1.00 lakh per project is provided by SKDRDP. Technical assistance is also provided for proper implementation of the project.

#### Goshala project:

SKDRDP to commemorate the Silver Jubilee year has established a cattle development center project in which indigenous cows would be replicated for distribution among the community. The center would also take care of animals with breeding problems and will take up research on animal husbandry.

The project has been established in the eight acre land allotted by the Government at **Kokkada village near Dharmasthala.** So far required sheds, machineries have been installed. A gobar gas plant, a slurry tank have been setup. 65 local cows have occupied the sheds. Rs. 19.00 lakhs has been invested in the project during the year.

Annual Report 2009

#### MICRO INSURANCE PROGRAMME:

SKDRDP has introduced insurance products to protect the stakeholders against hospitalization, death, permanent disability, maternity expenses, calamities etc., The organization for this purpose has developed a comprehensive micro insurance product termed as *Sampoorna Suraksha*. Under this programme the insurance service providers are contracted to provide hospitalization cover. The local hospitals are engaged as network hospitals to provide cash free treatment to the policy holders upon preauthorization. Many major ailments are packaged to give support to the insurance companies and hospitals. SKDRDP also provides compensations for other requirements as mentioned above against a small additional premium.

The Sampoorna Suraksha programme is a major success as the following figures speak out.

(Amt. Rs. In lakhs)

	Enrolle	ment	Premium			Special	Total	
Year	Families	members	collected	No. of claims	Amt. paid	No.	Amt.	Amount paid
2004-05	54,000	186,000	168	7,737	264	4,073	87	351
2005-06	77,078	195,600	287	8,688	251	4,611	81	332

Sampoorna Suraksha beneficiary

#### Life Insurance and Asset Insurance:

As a corporate agent of Life Insurance Corporation of India, SKDRDP is popularizing the Jeevan Madhura Life Insurance Policy. It is engaged in introducing the policy to the new beneficiaries and ensuring the renewal of their policies. During the year 50,793 policies were sold by SKDRDP Sevanirathas. Claims are settled equally quickly under the programme.

#### **Cattle Insurance:**

SKDRDP has become a corporate agent of National Insurance Company and has formally popularized animal insurance. During the year 9,087 animals were insured.

#### 'GELATHI': - A counselling centre for women:

'Gelathi' was constituted during the year 2005. It is a family

counselling centre managed by a team of counselors from different faculties. Stakeholders with marital, family, pshychological and legal problems approach the centre on problematic issues and seek advice and solutions. The centre provides possible solutions and follows it up with the family.

#### The performance of the 'Gelathi' since inception:

Type of problems	No. of cases					
Family problems	89					
Problem of alcoholism	16					
Legal complications	14					
Physically handicapped	11					
Psychiatry problems	16					
Other	7					

#### Rating Exercise;

SKDRDP has received mfR3 rating from CRISIL for the consecutive second year. It represents strong institutional linkage, availability of financial and non financial strength to scale up and sustain operations and good asset quality and adequate monitoring mechanisms.

68

#### Annual Report 2009 VISITOR'S THOUGHT

We have learnt how we can extract mind solace from our professional work by way of appreciating the visionary skills of chief of Dharmasthala and try to impart some social obligations for our country.

## Chanda and six other national level officers

NABARD

West Bengal

The interaction with the officials of SKDRDP watching their movie gives me encouragement to carry on my rural development activities more effectively.

Dr. H.K.Prakash

Ramakrishna Mission

Bangalore

The Rural Development caused by the project is truly stupendous and much needed for the country and the world. The holistic thoughts that have gone into the design and implementation of the project is something very rare and worthy of emulation

We are fortunate to have come across the project at a time when we are in the process of shaping some truly significant course of action in rural Tamilnadu. We wish to express our gratitude to the Project Director and other staff for having shared so much with us.

Swami Nisarga

Isha Foundation Velliangiri Foot Hills Coimbatore-641114

Found very pleasing about the efforts initiated by SKDRDP. It is very heartening to listen that the activities have extended beyond the Coastal districts. Agriculture when it is performed under composite form then only it is sustainable, which our visiting farmers have understood in their short visit.

We pray and with the SKDRDP to grow beyond limits.

Dr. K.G.Banuprakash

XVX : 562125

Chinthamani-563125

#### Nominations to National committees

The Executive Director has been nominated on the National Board of the Khadhi and Village Industries Commission, New Delhi for a period of three years. He is also nominated on the high power committee on the Self Help Groups formulated by the Ministry of Rural Development, Govt. of India for a period of two years.

## **MISCELLANY**

#### Management and administration:

SKDRDP is managed by a Board of Trustees appointed by its President for a period of three years each. The Trustees are expected to meet

years each. The Trustees are expected to meet once in a quarter. During the year 2008-09 three meetings of the Trustees were held viz., 19-4-2008, 8-10-2008, 8-2-2009.

Dr. Veerendra Heggade and Smt. Hemavathi Heggade take personal interest in day today performance of SKDRDP.

Besides, the Trustees also attend the Executive Committee meeting. The Executive Committee compraises of the Trustees and the appointed Directors of SKDRDP. The Project Officers of

SKDRDP are the invited members of the Executive Committee. During the year 2008-09 the Executive committee met on 10 occassions on the following dates.

22-4-2008, 12-5-2008, 10-6-2008, 12-7-2008, 21-8-2008, 14-10-2008, 24-3-2008, 26-3-2009, 28-3-2009, 30-3-2009.

While the Trustees take policy decisions and advise on the course of action in the short term and in the long term, the Executive Committee takes implementation decision, reviews the performance of the project offices, approves the action plans and generally implements the directions of the trust.

#### M/s Infosys donate books to Women Libraries

M/s Infosys foundation contributed liberally to the empowerment of rural women by donating 900 sets of library books each consisting of 140 fictions, essays, books on science and social sciences etc.,

#### SKDRDP CELEBRATES 60TH BIRTHDAY OF DR. D. VEERENDRA HEGGADE

SKDRDP proudly took part in the celebrations of Dr. D. Veerendra Heggades 60th birthday by organising a seminar called "Grameena" in Bangalore On 22nd October 2008. This was followed by a mega congregation of almost 80,000 stakeholders who rejoiced the blessings showered on their visionary by the pontiffs of various mutts in gala celebrations held at Mudubidri and attended by the Hon'ble Chief Minister Shri B. S. Yaddyurappa. Dr. Heggade used this occasion to declare the expansion of SKDRDP into North Karnataka district of Gadag, Haveri and Dharwar.

The Executive Director and officers of SKDRDP attended many a programme and gave their expertise on different issues. The Executive Director presented a paper on "NGOs perspectives on implementation of BC and BF model" in a workshop organised at Bangalore entitled Vyapthi on 2nd June 2008.

Dr. Manjunath addressed the workshop conducted by **Syndicate Bank at Manipal on SHG** financing, the experience of **SKDRDP**.

## Wytep (Women and Youth Training and Extension Programme) women agricultural workshop:

SKDRDP hosted the Danida Govt. of Karnataka joint venture state level conference of the Wytep in Dharmasthala February 27 and 28th. More than 200 women from dirfferent districts of the state attended the workshop and experienced the activities of SKDRDP.

The Coconut Development Board, Regional office, Bangalore offered support for improving the existing plantations in 50 hectares of Kadur taluk, chikamagalur district. The programme at a cost of Rs. 18.00 lakhs was well received by the farmers.

#### Vocational Excellence award for Executive Director

Our Executive Director was conferred with **Vocational Excellence Award** by the Rotary district 3190 Bangalore for his performance of service as the Chief Executive Officer of SKDRDP, in a function held at **Bangalore on 26th October 2008**. On this occassion the Executive Director made a presentation on SKDRDP to the National audience of rotarians.

## Presidents special programme:

SKDRDP started implementing a special programme announced by the President of SKDRDP, Dr. D. Veerendra Heggade in January 2009 to give special assistance for the rural poor to take up livelihood, improve agriculture and construct sanitation units. In a unique implementation strategy close to 25,000 families were assisted to setup small scale diary units, install gobar gas plants, implement Sustainable Integrated Farming (SIF) and construct sanitation units. All these units will receive subsidy from Dharmasthala temple.

#### Agricultural workshops and mini Krishimelas:

Our Puttur, Sulia, Kundapur and Udupi project offices organised mini Kissan Melas each of one day duration in which exhibition, stalls and agricultural sessions and relavent regional topics were held.

#### Gandhi jayanthi celebrations:

**SKDRDP** celebrated Gandhijayanthi the October 2nd 2008, with a state level workshop on drugs and alcoholism at Puttur. The workshop was inaugurated by Dr. D. Veerendra Heggade. Noted educationsit and doctor, prof. B. M. Hegde delivered the keynote address. On this occasion SKDRDP launched "Swasthya Sankalpa" an awareness programme for college students on the effects of drug and alcohol addiction.

#### Food and Health education festival:

Our Udupi, Kundapur, Karkala, Sulia and Puttur project offices celebrated food and health festival for women.

#### BRIDGE ACROSS SHARAVATHI

Molkodu is a hamlet in Uttara Kannada district with a population of 3,500. the Sharavathi river

separates Molkodu and Idagunji village. Residents of Molkodu, used to ferrying across the river by boat, have now built a bridge across the Sharavathi. Under normal circumstances, Molkodu residents lead a contented life, busy with their paddy, coconut and areca crops, but when the Sharavathi is in flood, the hamlet becomes an island. Villagers here had always wanted to build a bridge across the river, so that there is some form of communications and transport in times of a flood. The Sri Kshethra Dharmasthala Rural Development Scheme came to their aid. When the Linganamakki reservoir is full, the extra water floods Molkodu village, which becomes an island.

There were times, when the water from the reservoir was let out, without prior information to villagers. Most students here have to travel to Honnavar, Bhatkal and other nearby towns to study. The hamlet has two anganwadis and three primary schools. But, there are no other basic amenities like a hospital or a pharmacy in the village.

The villagers depend on the government doctor who comes visiting once a week. When the Sharavathi's waters eat into the land every year, the villagers struggles to take their agricultural produce to nearby towns. In spite of all that they are faced the residents are not eager to relocate to other villages and towns in the vicinity.

Molkodu is a half-an-hour's walk from the Idagunji temple. But to reach Molkodu one needs to get hold a boat. Only one boat is available and peopel have to wait for hours to ferry across the river. Also the boatsmen are wary of rowing peoples across after sunset. A bridge was just what these villagers wanted.

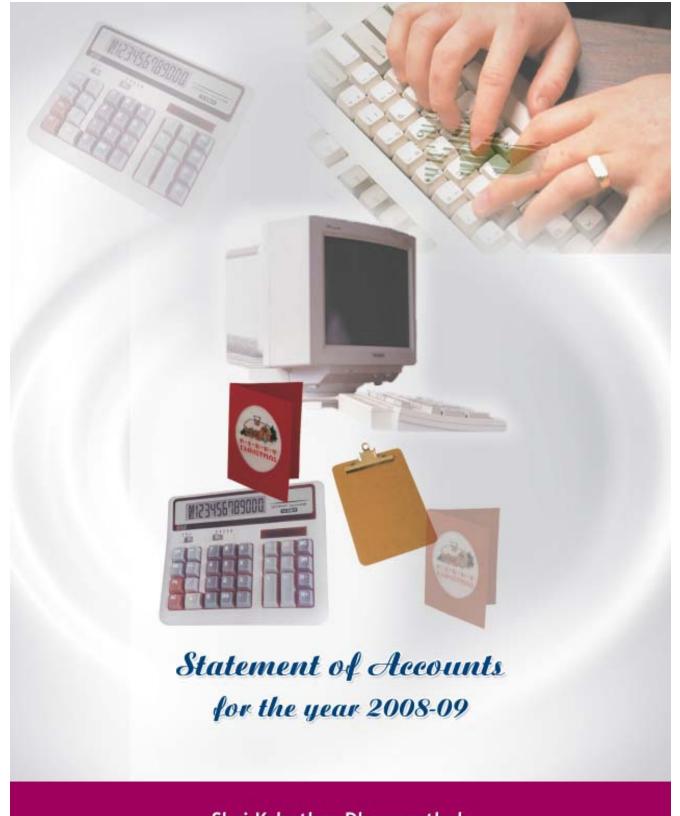

#### A dream come true

Today, their dream has comes true. As many as 150 people from various self help groups got together and brought stones, sand and other construction material by boat from Honnavar. They then build a bridge without the help of any big machinery or iron and cement. The bridge was funded by the Dharmasthala Rural Development Scheme under the community participation project. The scheme fetched Rs. 50,000/- while he Idagunji temple and other donors pitched in with a total of Rs. 85,000/-. The bridge is a great advertisement for community participation and involvement.

Molkodu's Gopal Gowda led from the front to take the project to its logical conclusion. One day, when he couldn't get the boatmen to ferry him across the river, Gopal Gowda resolved to get a bridge built. He went about doing it too, by forming a Trust, comprising 12 members. They then tried to draw the attention of the government towards their demands. The government, however, did not respond.

#### Bridge brings change

But, the bridge has changed a lot of things for residents of Molkodu. Two-wheelers have started plying on the bridge. But, there is still fear about a part of the bridge that has been flooded because of recent rain. The villagers now plan to increase the height of the bridges by another three feet with stones to makes it stronger.

Annual Report 2009

Date: 19/08/2009

### **AUDITORS REPORT**

We have audited the attached Balance sheet as at 31st March 2009 and the Income and Expenditure Account for the year ended on that date annexed there to of Shri Kshethra Dharmasthala Rural Development Project (REGD) Dharmasthala. These Financial Statements are the responsibility of the Management. Our responsibility is to express an opinion on these financial statements based on our audit.

We have conducted the Audit in accordance with Auditing Standards generally accepted in India. These standards require that we plan and perform the Audit to obtain reasonable assurance whether the financial statements are free of material misstatements. An Audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by managements, as well as evaluating the financial statements.

We believe that our Audit provides a reasonable basis for our opinion.

- a) We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- b) In our opinion, proper books of account as required by law have been kept by the Trust so far as it appears from our examination of such books of account;
- The Balance Sheet and Income and Expenditure account dealt with by this are in agreement with the books of account;

Annual Report 2009

- d) In our opinion and to the best of our information and according to the explanation given to us, the said accounts give a true and fair view in conformity with accounting principles generally accepted in India:-
  - a) In the case of Balance Sheet of the state of affairs as at 31<sup>st</sup> March 2009
  - b) In the case of Income and Expenditure of the Excess of Income over Expenditure for the year ended 31<sup>st</sup> March 2009.
